Terang – Camperdown Fires

Monday, 19th March 2018

COMMUNITY INFORMATION MEETING

Location: Terang Civic Hall – 129 Mary Bradshaw Avenue,
Terang
Time: 1:00pm

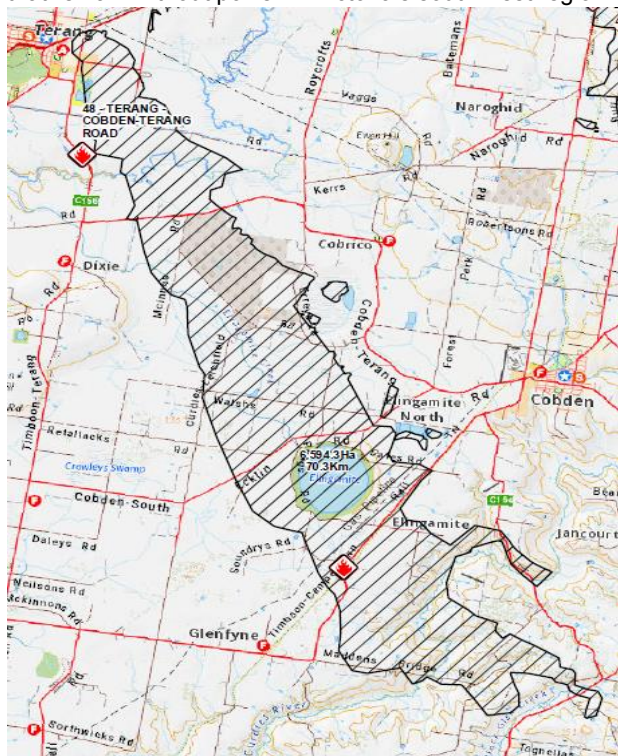

INCIDENT INFORMATION

The Terang and Camperdown fires are not yet under control, however significant work overnight by ground crews kept both fires from growing.

Estimated losses across both fires include 18 houses, 42 sheds, several head of cattle, pasture and silage as well as part of a blue gum plantation. Impact assessment teams will be working in the area over coming days to assess property losses.

TERANG FIRE - Estimated at 6,771 hectares

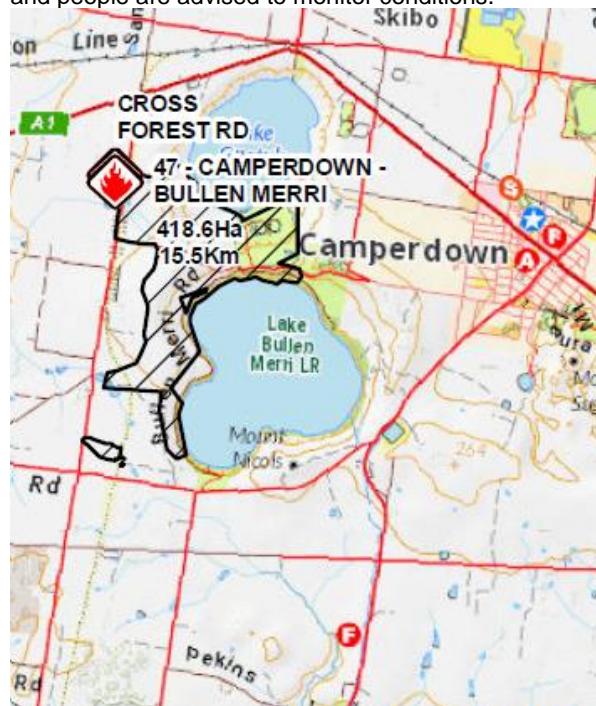

This grassfire is the largest of the south west fires. With conditions easing overnight on Sunday, crews are on high alert for possible breakouts if winds pick up. 200 firefighters and 70 vehicles and 6 aircraft are working on the fire, along with machinery to build containment lines. Several homes remain without power. Powercor crews are working to restore power to about 1,500 homes and businesses that remain without power in Victoria's south west region

following the weekend's fires and damaging winds. While most customers are expected to be back on supply today, in some cases it may be a number of days before crews are able to safely repair damaged infrastructure. There is a Watch and Act and Advice warning in place for several townships in the area.

GNOTUK -CAMPERDOWN FIRE - Estimated at 200 hectares

This fire is not yet under control, however fire behaviour has eased overnight. Waterbombing aircraft attacked the fire on the steep banks near Lake Gnotuk. 50 firefighters and 20 trucks have worked on the fire overnight. A Watch and Act message remains for townships in the area and people are advised to monitor conditions.

POWERCOR – POWER OUTAGES

Any dairy farmer without power – needs to contact 132 412 to register their details. These outages will be given priority for rectification.
